

# Turbine Ignition Leads

## Product Features

**Contact Assembly** - Provides sure sparks and clean, positive contact between lead, igniter and exciter.

**Military-Grade Stainless Steel Shielding** - Provides positive RFI protection and resists abrasion.

**Core Assembly** - Meets stringent OEM and military requirements and provides maximum spark efficiency and insulation value.

Champion Aerospace provides OEMs with high-quality, military-grade ignition leads manufactured with technology designed for the 21<sup>st</sup> century. Champion is a full ignition system supplier to the turbine engine market.

Champion has moved rapidly to supply the turbine aftermarket with top-quality, cost-effective replacement leads, as well as offering a lead overhaul program, a unique maintenance alternative. Regular, preventive maintenance helps avoid costly, unscheduled maintenance caused by worn turbine ignition leads. Often, cables that do not appear worn, but have weak shielding or poor connections can actually be about to fail. Whether you buy new FAA-PMA approved replacement leads or choose to overhaul your current leads, you're assured of quality, prompt delivery and maximum reliability.
